

AT&T Cell Booster ProSM

Free for Qualified FirstNet[®] Primary Agencies

AT&T Cell Booster ProSM is an enterprise-grade mini cell tower that uses an internet connection to extend in-building connectivity for FirstNet[®] devices.

When building materials, terrain and structures impede the cellular network signal inside your building, causing dropped or missed calls, AT&T Cell Booster ProSM boosts in-building wireless coverage for locations up to 90k sq. ft. and 384 users.

Plus, qualified first responder agencies on FirstNet can get a limited number of AT&T Cell Booster ProsSM with professional install at no cost,* no contract, no monthly fee or hidden charges.

AT&T Cell Booster Pro SM	
Price	\$699 \$0
Professional Install	\$700 \$0
Coverage	15K sq. ft. (max 6 per bldg.)
# of Users	64 Total (max 6 per bldg.)

Legal & Qualifications

*FirstNet Primary Agencies can qualify for up to 50 AT&T Cell Booster ProsSM (\$699 value each). Agencies can choose self-install or free professional install (\$700 value per building). Must be an active FirstNet Primary Agency. Maximum 6 per physical building, which must be experiencing indoor coverage issues (less than 2 bars). Must meet broadband and GPS requirements, which you can find at firstnet.com/CPBrequirements.

Limited time only; inventory limited, and offer can be discontinued at any time. AT&T Cell Booster ProSM and professional install are not available in U.S. territories; contact your account manager for an alternative no-cost solution. The AT&T Cell Booster ProSM 5G model is not included in this offer.
